

# Denver Post Educational Services 2009 SUMMER TEACHER CONFERENCE

July 24, 2009  
8 a.m. - 4:30 p.m.  
Metro State College  
Auraria Campus

**Spend an exciting day learning how to use the newspaper and historic primary sources to bring the real world into your classroom.** For example, Everyday Economics, a newspaper resource, teaches students economic concepts underlying the news. Primary sources help students relate the Great Depression to today.

Topics will include:

**Healthy Economy:** The economics behind current events and addressing the new K-12 Financial Literacy standards.

**Healthy Environment:** alternative energies, recycling, and natural resources.

**Healthy Kids:** Help students make smart decisions about a wide variety of health issues, including childhood obesity, fitness, and nutrition, and learn ways to engage them in philanthropy and social action.

Plus learn more about the **21st Century Skills** that are being used in the development of updated Colorado Model Content Standards.

- Sessions are geared for 3-12 grades and all content areas.
- Only \$65 (includes breakfast and lunch).
- .5 to 1.5 semester hours of graduate credit are available from Adams State College for an additional cost of \$55 for .5 hours, \$82.50 for 1 hour and \$110 for 1.5 hours of credit. (outside homework required for 1 and 1.5 credits.)

Go to [www.DenverPostEducation.com](http://www.DenverPostEducation.com) for a registration form.
